FieldBee

# Our Products - Overview

## Module 1

- **Tractor GPS Navigation App**
- Use own phone/tablet.
  No need for expensive terminals.
- Record keeping of field operations.

## Module 2

- **RTK GNSS Receiver**
- Achieve high ± 1 cm precision indication from local NTRIP provider or FieldBee™ Base Station

## Module 3

- **RTK GNSS Base Station L1 + L2**
- Transmits RTK correction signal with ±1 cm accuracy at 20 km radius and more.
- Using internet or radio for signal transmitting.

## Module 4

- Aftermarket Autosteer Systems with high value-for-money:
  - **Mechanical**
  - **Hydraulic**
  - **Steer-ready** (steer-by-wire)

FieldBee

# Module 1

## FieldBee Tractor GPS App

### Main functionality

- Tractor navigation with multiple patterns
- Field record keeping
- Mapping, scouting, reporting
- Autosteer functionality
- Cloud synchronisation
- Multiple vehicle and implement profiles

### Advantages

- ✔ No need to buy expensive terminals
- ✔ Works on many Android devices
- ✔ Constant improvements with new app updates
- ✔ Remote support and update
- ✔ Can be customised and integrated with other systems

### Navigation guidance patterns

**AB straight**

AB straight is suitable for the regular shaped square or rectangular fields.

**AB curve**

AB curve is suitable for all field's shapes

**Headland straight / curve**

Headland is suitable for spraying operations.

**Saved track**

With the "Saved track" pattern you can always return to the same line in the field.

**Multiple Headland**

Operator can drive around the contour field with several hadland passes before proceeding with straight or curved lines inside the field.

FieldBee

## Module 2

# Farm vehicle GPS receiver, RTK-ready accuracy

### Advantages

- ✔ Works with various 3rd party terminals, base stations and NTRIP networks
- ✔ Submeter accuracy without correction signal
- ✔ Easy to install and operate
- ✔ Easy to switch between tractors
- ✔ Upgradable to autosteer
- ✔ Firmware updatable over the air
- ✔ Works with power cable or external battery
- ✔ Off-line work with LoRa

### Main Features

- ±1 cm accuracy with RTK correction
- 20+ km RTK signal radius via internet
- 2+ km radius via radio (LoRa)
- First RTK signal in <30 sec
- Wirelessly connecting with app

FieldBee

## Module 3

# FieldBee RTK GNSS Base Station L1 + L2

### Advantages

- ✓ A smart sensor that creates your own free RTK signal
- ✓ Provides the highest accuracy of +1 cm;
- ✓ Transmits RTK correction via Radio and Internet with radius 20+ km
- ✓ Works with unlimited number of FieldBee receivers;
- ✓ Can be freely shared with your neighbors

### Main Features

- ✔ RTK signal that you own
- ✔ Works will with autosteer
- ✔ Reach maximum accuracy with no subscription fees
- ✔ Use with multiple receivers
- ✔ Remote help with setup

### L1 Base Station:

Ideal solution for farmers with flat fields without high trees and power lines.

### L2 Base Station:

Made to achieve the highest precision on fields with hills and signal obstructions.

FieldBee

## Module 4.1

# Mechanical autosteer kit

### Advantages

- ✔ Easy to install
- ✔ Easy to switch between machines
- ✔ Built-in terrain compensation
- ✔ Fits more than 700 tractor models
- ✔ Achieving ±2 cm accuracy

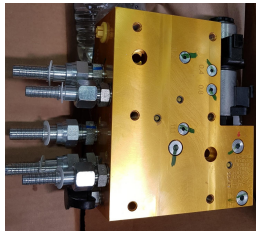
### Main components

- L2 GNSS Receiver
- L2 Base Station (optional)
- ECU - controller
- MDU - steering actuator
- Anti-rotation bracket
- A set of cables
- Mobile modem/ router

FieldBee

## Module 4.2

# Hydraulic Autosteer kit (aftermarket)



Hydraulic valve

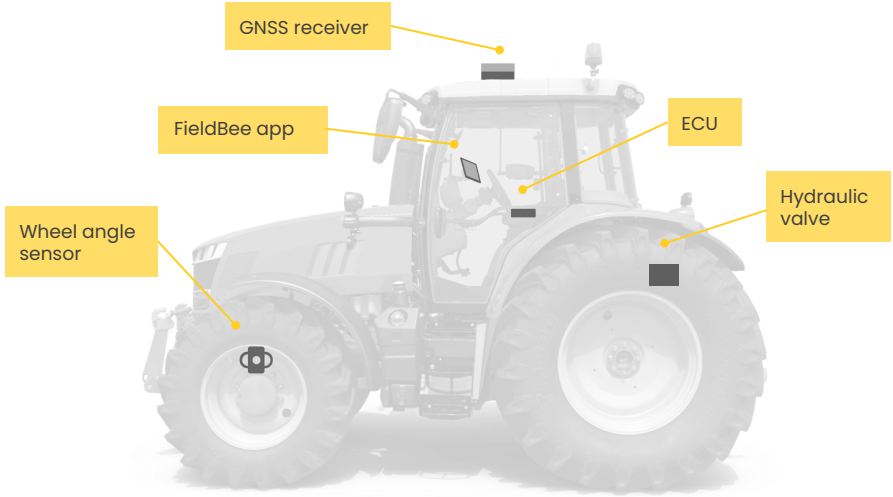
Wheel angle sensor

### Benefits

- ✔ Very high precision of ±1 cm
- ✔ Fits older tractors even with steering column issues
- ✔ Has built-in terrain compensation
- ✔ More comfort for operator

### Main components

- L2 GNSS Receiver
- L2 Base Station (optional)
- ECU - controller
- Hydraulic valve kit
- Wheel angle sensor
- Foot on/off Switch
- Set of cables



FieldBee

# Product Line Advantages

- Designed for simplicity in installation and operation
- Intended to be the best value-for-money: high-quality materials and assembly, great support.
- Manufacturing and assembly (Latvia, US, Mexico)
- Hardware warranty: 2 years on all hardware sold by FieldBee
- Installation support: hand-holding remote support for installation and calibration.
- Customer support: high availability during business hours. Able to view device errors and fix issues remotely.
- Buying with confidence: 30-day money-back guarantee.

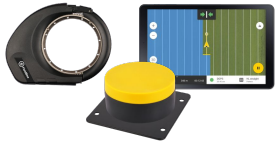
# FieldBee packages



## Mechanical Autosteer Kit with L2 receiver Package

EF-0020-ATL2-EU-01

- FieldBee app annual license
- Fieldbee L2 receiver
- ECU-S1 + bracket
- MDU-G4 Bundle
- RTK Unlock
- Metal Plate
- Cell modem + WiFi router

## Hydraulic Steer Kit with L2 receiver Package

EF-OPCV-00-01

- FieldBee app annual license
- Fieldbee L2 receiver
- ECU-S1 + bracket
- Open or Closed Center valve kit
- Wheel angle sensor
- Foot Switch
- RTK, Hydraulic unlock
- Metal Plate
- Cell modem + WiFi router

* Hydraulic hoses are not included

## Steer Ready Kit with L2 receiver Package

- FieldBee app annual licence
- FieldBee L2 receiver
- ECU-S1 + bracket
- Installation Kit Steer ready tractor
- RTK Unlock
- STEER-READY Unlock
- Metal Plate
- Cell modem + Wifi router

## Mount Kit Mechanical Autosteer Package

- Extra Switch Kit
- Controller Bracket kit
- Anti-rotation kit
- Metal Plate
- Extra Harness Kit - optional

## Mechanical Autosteer Kit (Upgrade)

- ECU-S1 + Bracket Kit
- MDU-G4 Bundle
- RTK Unlock
- Anti-rotation kit
- Cell modem + WiFi router

# FieldBee packages

### Manual Guidance L1 Package

EF - 010

- FieldBee app annual license
- Fieldbee L1 Receiver
- Metal Plate

### Manual Guidance L2 Package

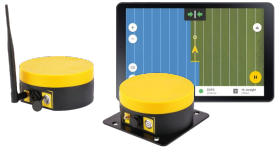
EF - 010

- FieldBee app annual license
- Fieldbee L2 Receiver
- Metal Plate

### L1 RTK System Package

EF-019-EU-RB-01

- FieldBee app annual license
- Fieldbee L1 Receiver
- Metal Plate
- 2x Metal Plate

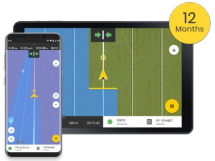


### L2 RTK System Package

EF-019-EU-RB-01

- FieldBee app annual license
- Fieldbee L2 Receiver
- FieldBee L2 Base station
- 2x Metal Plate

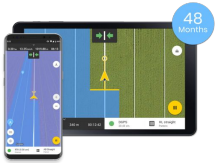
## Optional products



### App annual license

EF - 010

Needed for any FieldBee package



### App annual license 4 years

EF - 010 – 01

Needed for any FieldBee package

### Cell modem + WiFi router

WIFI

Optional for packages with L1 and Needed for package with L2 and Autosteer
